YUKSEK IHTISAS UNIVERSITY
MEDICAL CERTIFICATE
P R O G R A M S

Turkey Trainings an International Education Consultancy Agency with access to more than 128 high ranked partner Universities in Turkey, Europe Canada, USA. TT offers a suite of learning opportunities on the most important topics and trends for professionals, experts, and life-long learners from around the world to enhance skills, broaden networks, and deepen thinking. We work with top thinkers and doers from the high-ranked universities, institutions and premier industry resources from all across Turkey to offer cutting-edge analysis, highlight global trends, and lead discussions that open up new ways of thinking covering topics from Agriculture Training Programs to Women's Leadership Programs, to Tourism, ICT and Seafarers' Certifications; for short term and long term immersive learning experience. In addition to regularly offered programs, Turkey Trainings offers customized programs that are tailored to the needs of public policy professionals in government agencies, institutions and the private sector. Programs can take place in-country or at our venues.

INTERNATIONAL HEALTH TOURISM ASSOCIATION is a global association, founded in 2014 to brand Turkey as medical tourism destination. They have been in the field for more than 6 years now, working tirelessly to expand the International Patient Industry with a focus on providing the highest quality transparent healthcare to international patient. They've been fortunate enough to meet with engaging, intelligent people from every corner of the world, all of whom have one goal in mind – the continuous improvement of transnational medical travel.

Yüksek İhtisas University is a health sciences university that creates knowledge and applies science and discoveries to further education, healthcare and community service locally and globally. This top-ranked medicine school is located in Ankara, the capital of Turkey. Yüksek İhtisas University prepares learners to become the next generation of leaders in the biomedical and health sciences with competencies founded in inquiry, service and innovation to promote health and transform healthcare in the world. Yüksek İhtisas University has achieved universal standards with a national and international education program and is among the best medical faculties of Turkey by training physicians and other medical professionals who communicate well with their patients, focus on medical preventive medicine and public health, and do not ignore ethical values.

Affiliations with leading research and healthcare institutions in and around the Ankara Medical Center, the world's largest healthcare complex, provide access to an exceptionally diverse array of people and resources. Medical students, residents, fellows, physician assistant students and nurse anesthesia students have the opportunity to gain clinical experience at a number of health care facilities throughout Ankara. These include large private physician practices as well as community health centers and long-term care facilities.

Yüksek İhtisas University offers a one-of-a-kind environment for the education and training of leaders in medicine.

ANKARA, THE CAPITAL OF TURKEY

The capital of Turkey and second-largest city in Turkey, Ankara is a great place to live and work. Ankara, which is located in the Inner Anatolia Region and is also the capital of Turkey, is a very important province with its history. It is a region where many civilizations have lived due to the fact that it is located almost in the middle of Anatolia, it has suitable living conditions and since it is on the transit route.

Accommodation Services

Turkey Trainings provides a variety of options to meet our students' accommodation needs throughout their educational life in Turkey. Students will have access to wired / wireless Internet, meal options of breakfast, lunch and dinner. Communal areas such as TV room, study room and kitchen are also available for students.

	500	1100	1600

Employment Opportunities:

Students who successfully complete this program work in all health care settings; for example in the maternity unit of a large general hospital, in smaller stand-alone maternity units, in private maternity hospitals, in group practice, at birth centres, with general practitioners and in the community.

Certificate of Achievement:

Students who attend and successfully complete our Midwifery Training Program and pass the exam will obtain a certification of achievement.

NURSING ASSISTANT PROGRAM

Purpose of Program:

The purpose of this program is to train Nursing Assistants who provide basic care to patients and help them with daily activities they might have trouble doing on their own, such as bathing and getting dressed. Working as a Nursing Assistant also requires strength for physical tasks and the desire to help sometimes frail, lonely patients and others struggling with disease and illness. Nursing assistants must be able to listen to patients' concerns and ask questions to determine their needs. In nursing or long-term care facilities, Nursing assistants are often a patient's main caregiver. The opportunity to develop personal relationships with patients and make an impact on their daily lives can make this an emotionally rewarding career.

Duration of Program:

Program consists of 600 hours of theoretical training. (250 hours – offline, 350 hours of -face-to-face trainings). Program also includes 1000 hours of practical training which consists of 200 hours of simulation and laboratories and 800 hours of observation.

Courses	Total hours of Theoretical Training	Total hours of Practical Training	Total of both Theoretical and Practical Training hours
Anatomy	24	24	48
Physiology	24	0	24
Microbiology	24	16	40
Pharmacology	24	0	24
Pathology	24	0	24
Essentials of Nursing	70	140	210
Internal Medicine Nursing	52	140	192

Certificate of Achievement:

Students who attend and successfully complete our Midwifery Training Program and pass the exam will obtain a certification of achievement.

EMERGENCY MEDICAL TECHNICIAN PROGRAM

Purpose of Program:

The purpose of this program is to train Emergency Medical Technicians who provide emergency care to people outside of or on the way to the hospital. They can give basic medical and first-aid care until a person can get help at a hospital or other medical facility. Emergency medical technicians assess, treat and manage service users at the scene, reducing the need for them to be admitted to hospital if it is appropriate to do so, by either referring service users to alternative care provisions or safely discharging them on scene.

Duration of Program:

Program consists of 550 hours of theoretical training. (250 hours – offline, 300 hours of -face-to-face trainings). Program also includes 450 hours of practical training which consists of 150 hours of simulation and laboratories and 300 hours of observation.

Courses	Total hours of Theoretical Training	Total hours of Practical Training	Total of both Theoretical and Practical Training hours
Anatomy	24	24	48
Pharmacology	24	0	24
Medical Terminology	24	0	24
Emergency Health Services I	54	28	82
Emergency Health Services II	42	28	70
Resuscitation	54	28	82
Emergency Patient Care I	54	46	100
Emergency Patient Care II	54	46	100
Emergency Patient Care III	54	84	138
Occupational Practice I	54	46	100
Occupational Practice II	28	36	64
Trauma	70	56	126
First Aid	14	28	42
	550	450	1000

Employment Opportunities:

Students who successfully finish this program will work in the ambulance service with paramedics, emergency call handlers and medical dispatchers, emergency care assistants, emergency medicine doctors, nurses and the wider NHS.

Certificate of Achievement:

Students who attend and successfully complete our Midwifery Training Program and pass the exam will obtain a certification of achievement.
